

Stormwater Awareness

Water Quality Matters in Pflugerville
Stormwater Program

What is Stormwater?

Rainwater that enters the storm drain system and empties into downstream water bodies

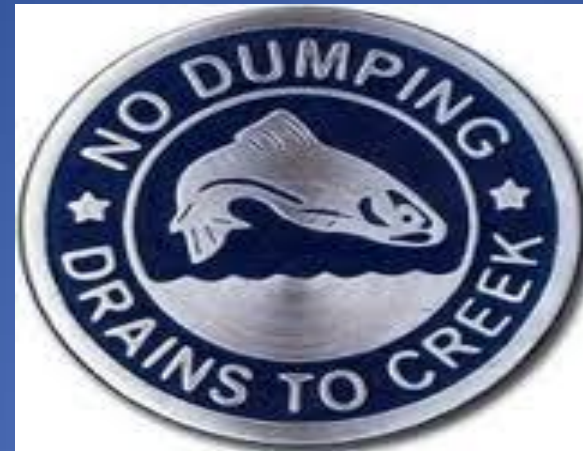

Pollutants on the street and from yards are picked up by water and flow directly to local streams.

NO PRETREATMENT

City of Pflugerville Stormwater Program

- Focuses:
 - Pollution Prevention
 - Public Education
 - Engineering
 - Enforcement
 - Ensure Pflugerville's compliance with federal & state regulations
 - Reduce the amount of stormwater pollution flowing into and through local waterways

Preventing Pollution

Water Quality issues matter to our:

- Quality of life
- Economy
- Compliance with Federal and State laws
