Notice, City may terminate this Agreement as of the date provided in the notice, in whole or in part, upon the occurrence of one (1) or more of the following events, each of which shall constitute an Event for Cause under this Agreement:

7.3.1 The sale, transfer, pledge, conveyance or assignment of this Agreement without prior approval, as provided in Article XII. Assignment and Subcontracting.

7.4 *Defaults With Opportunity for Cure.* Should Consultant default in the performance of this Agreement in a manner stated in this section 7.4 below, same shall be considered an event of default. City shall deliver written notice of said default specifying such matter(s) in default. Consultant shall have fifteen (15) calendar days after receipt of the written notice, in accordance with Article VIII. Notice, to cure such default. If Consultant fails to cure the default within such fifteen-day cure period, City shall have the right, without further notice, to terminate this Agreement in whole or in part as City deems appropriate, and to contract with another consultant to complete the work required in this Agreement. City shall also have the right to offset the cost of said new Agreement with a new consultant against Consultant's future or unpaid invoice(s), subject to the duty on the part of City to mitigate its losses to the extent required by law.

7.8 Upon the effective date of expiration or termination of this Agreement, Consultant shall cease all operations of work being performed by Consultant or any of its subcontractors pursuant to this Agreement.

Further, any failure of either Party to insist in any one or more cases upon the strict performance of any of the covenants of this Agreement, or to exercise any option herein contained, shall in no event be construed as a waiver or relinquishment for the future of such covenant or option. ## SECTION 2

### Scope of Professional Consulting Services for Reinvestment Zone Feasibility Analysis & Zone Creation

The HHA approach, as described below, divides the process into two distinct phases. The first involves development of the feasibility study that establishes whether one or more tax increment reinvestment zones or transportation reinvestment zones are appropriate to meet the community's objectives. The second phase continues the process through creation of each reinvestment zone, including development of the required Project Plan and Reinvestment Zone Financing Plan.

#### A. Phase One: Reinvestment Zone Feasibility & Pre-Creation Activities

- Identify the City's goals for creating or expanding one or more reinvestment Zones within the City. Hawes Hill will work with City Staff and appropriate stakeholders to gain a better understanding of the City's objectives and desired outcomes in utilizing tools such as a TIRZ or TRZ.
- Conduct an initial needs analysis to establish issues facing the City and opportunities for reinvestment/new investment through the use of special districts. The initial needs analysis will result from the collection and examination of available data, meetings with local public and private sector stakeholders, and field observation.
- Information will be numerically and geographically considered and will include a) a complete review of all ad valorem values; b) existing land uses; c) documentation of blighted conditions; d) identify tracts where development is impeded due to faulty lot layout or improper zoning; e) analysis of any other relevant factors impeding development or redevelopment of the area.
- Results of the needs analysis will include a list of general locations where a reinvestment zone could potentially positively address community needs and opportunities, including around the downtown area and along strategic corridors including SH 45 and SH 130.
- Review any previous plans and studies related to the proposed opportunity areas, and identify proposed or planned developments within these areas.
- In coordination with City Staff prioritize opportunities and identify potential capital improvement projects, eligible by statute within each selected area.
- Provide a comparison of special district tools including but not limited to TIRZ and TRZ in achieving the City's goals and desired outcomes. This process will involve looking at the advantages/disadvantages of each tool and its relevance in meeting the City's goals and project implementation capacity.

- Analyze development scenarios and resulting impacts for the SH 45 corridor with and without the completion of frontage roads. Analysis will look at the market potential of the property and resulting impacts on revenue. This task will involve:
  - Defining the benefits of completion of the feeder roads with particular consideration to increased access to adjacent parcels.
  - Crafting up to four development scenarios for property adjacent to SH45 - one without the benefit of feeder roads and the other remaining scenarios that include feeder roads and their impact on development potential and varying uses. Development scenarios will consider general market trends and site features to establish potential development patterns, mix of land uses and anticipated densities. City Staff will assist the Consultant in determining the mix of uses and densities for the scenarios.
  - Establishing the resulting valuation of development in each scenario for purposes of estimating tax revenue generation.
  - Analysis results may be provided in a separate deliverable to suit the needs of the City and TxDOT.
- Determine which financing tool (e.g. a TRZ or a TIRZ) is appropriate for the areas identified as priority for redevelopment/new development. If a TIRZ is selected as the most appropriate tool, then a determination will be made on whether expanding the existing zone or creating a new one will best meet the City's goals.
- Refine the selected location(s) and establish a clearly delineated boundary map of each area along with related map sets for each proposed reinvestment zone.
- Prepare all GIS mapping and data analysis to "fine tune" and finalize each zone boundary to attempt to maximize success and work within statutory parameters. The result will include map sets that are fully optimized and in accordance with statutes for both the preliminary and final project and reinvestment zone financing plan.
- Present findings and recommendations of the feasibility analysis to City Council.

Deliverable:

- A report that discerns the need for a reinvestment zone (or not), sites with potential benefit from implementation of a reinvestment zone, goals for the reinvestment zone, potential projects, and anticipated financial revenue over the life of the zone.

Meetings:

- HHA will attend up to two (2) in-person meetings associated with the Phase 1 activities.

Fee:

- Phase One Fee - \$40,000

**B. Phase Two: Creation of the Tax Increment Reinvestment Zone (ADDITIONAL SERVICES, The Consultant will not commence Phase Two activities until authorization has been received from the City)**

- Prepare the Preliminary Project Plan and Reinvestment Zone Financing Plan. The Preliminary Project Plan will, at minimum, include the following: a) maps showing the existing uses and conditions of real property in the zone and maps showing proposed improvements to and use of that property; b) proposed changes to any zoning ordinances applicable to the area; c) a list of the estimated non-project costs; and, d) a statement of the method of relocating persons to be displaced as a result of the implementation of the project plan. The Preliminary Financing Plan will include: a) a list of the estimated project costs of the zone, including administrative expenses; b) a statement listing the kind, number, and location of proposed capital improvements, projects or programs to be undertaken in the zone; c) the estimated amount of bonded indebtedness to be incurred; d) the time when related costs or monetary obligations are to be incurred; e) a description of the methods of financing all estimated project costs and the expected sources of revenue to finance or pay project costs, including the percentage of tax increment to be derived from the property taxes of each taxing unit that levies taxes on real property in the zone.
- In coordination with City Staff, conduct meetings with key stakeholders, including elected officials and staff from proposed participating jurisdictions regarding the zone creation and implementation strategy. The HHA team will provide financial impact information to each jurisdiction and clarify how tax increment financing will impact the jurisdiction's tax base and further each jurisdiction's economic development goals and objectives.
- In coordination with City Staff, conduct a workshop (if needed or required) with the City on the creation of the zone. At this workshop, HHA will present the proposed redevelopment strategy, the process for creating the reinvestment zone, and the administrative issues associated with implementation of the project plan and reinvestment zone financing plan and serve as support staff to staff in their role as advisors to the elected leadership.
- Make any recommended revisions to the Preliminary Project Plan and Preliminary Reinvestment Zone Financing Plan prior to the public hearing. Changes will include revisions to the proposed boundaries, adjustments to related data sets associated with the area targeted for redevelopment, types and locations of proposed improvements, and any other changes required.
- Prepare and deliver to the City and legal counsel a draft public notice of the hearing and the Preliminary Project Plan and Preliminary Reinvestment Zone Financing Plan. In addition, the HHA team will serve as the point of contact for any questions or issues that arise related to the hearing before the hearing is held (or as support to the City if that is determined to be more appropriate).
- Assist the City with the conducting of a public hearing on the creation of the tax increment reinvestment zone. In doing so, the HHA team is willing to conduct the hearing on the City's behalf, or be present to serve as technical advisor to the City during the hearing.
- Prepare and deliver to the City and legal counsel the creation ordinance for the reinvestment zone. The ordinance will follow all of the requirements of, and make all the required statutory findings required in Chapter 311 of the Property Tax Code.
- Work with the City to nominate and appoint an initial Board of Directors for the tax increment reinvestment zone.
- Prepare a final Project Plan and Reinvestment Zone Financing Plan for presentation to the Board of Directors of the tax increment reinvestment zone. Should any changes to the plan be required based on the public hearing process, the HHA team will incorporate the necessary changes into the document and make it ready for presentation to the TIRZ Board of Directors for their consideration and approval.

- Prepare and submit to the City and legal counsel an ordinance for consideration by the City Council approving the Project Plan and Reinvestment Zone Financing Plan as adopted by the TIRZ Board of Directors.
- Assist the City with negotiating final participation agreements with taxing jurisdictions (other than the City of Pflugerville). Each agreement will delineate the rate of participation for the jurisdiction, the term of the agreement, and any special negotiated provisions required by the jurisdiction for their participation in the TIRZ.
- Present all participation agreements to the TIRZ Board of Directors for approval.

Deliverable:

- Preliminary Project Plan & Reinvestment Zone Financing Plan
- Final Project Plan & Reinvestment Zone Financing Plan

Meetings:

- HHA will attend up to three (3) in-person meetings associated with the Phase 2 activities.

Fee:

- Phase Two Fee - \$30,000, for the creation of one reinvestment zone.
