

RES-0852

Approving a resolution amending the City's adopted Water Conservation Plan

Water Conservation Plan Overview

- The City is required to update its Water Conservation Plan every 5 years as is required by TCEQ and TWDB.
- The last Water Conservation Plan was adopted on May 24, 2016.
- The plan aims to address efforts that the City will be taking over the next 5 years in order to conserve our water resources and what goals we are setting for our average water use per resident.

Updates to 2021 Water Conservation Plan

- Population estimates have been updated to reflect current data and projections for 2021-2026.
- Five- and ten-year goals for water conservation were updated to reflect current City of Pflugerville water customers and be more conservative on our water conservation projections.
- Incorporates forthcoming projects such as Advanced Metering Infrastructure (AMI) into our water savings projections.

Staff Recommendation

Staff recommends approval of this resolution amending the City's adopted Water Conservation Plan.
