

City Council Meeting
May 11, 2021

2021-0449

Discuss and consider action to approve a Professional Service Supplemental Agreement with Gupta and Associates in the amount of \$78,275 for professional engineering services associated with the Surface Water Treatment Plant and Lake Pump Station Standby Generator Project.

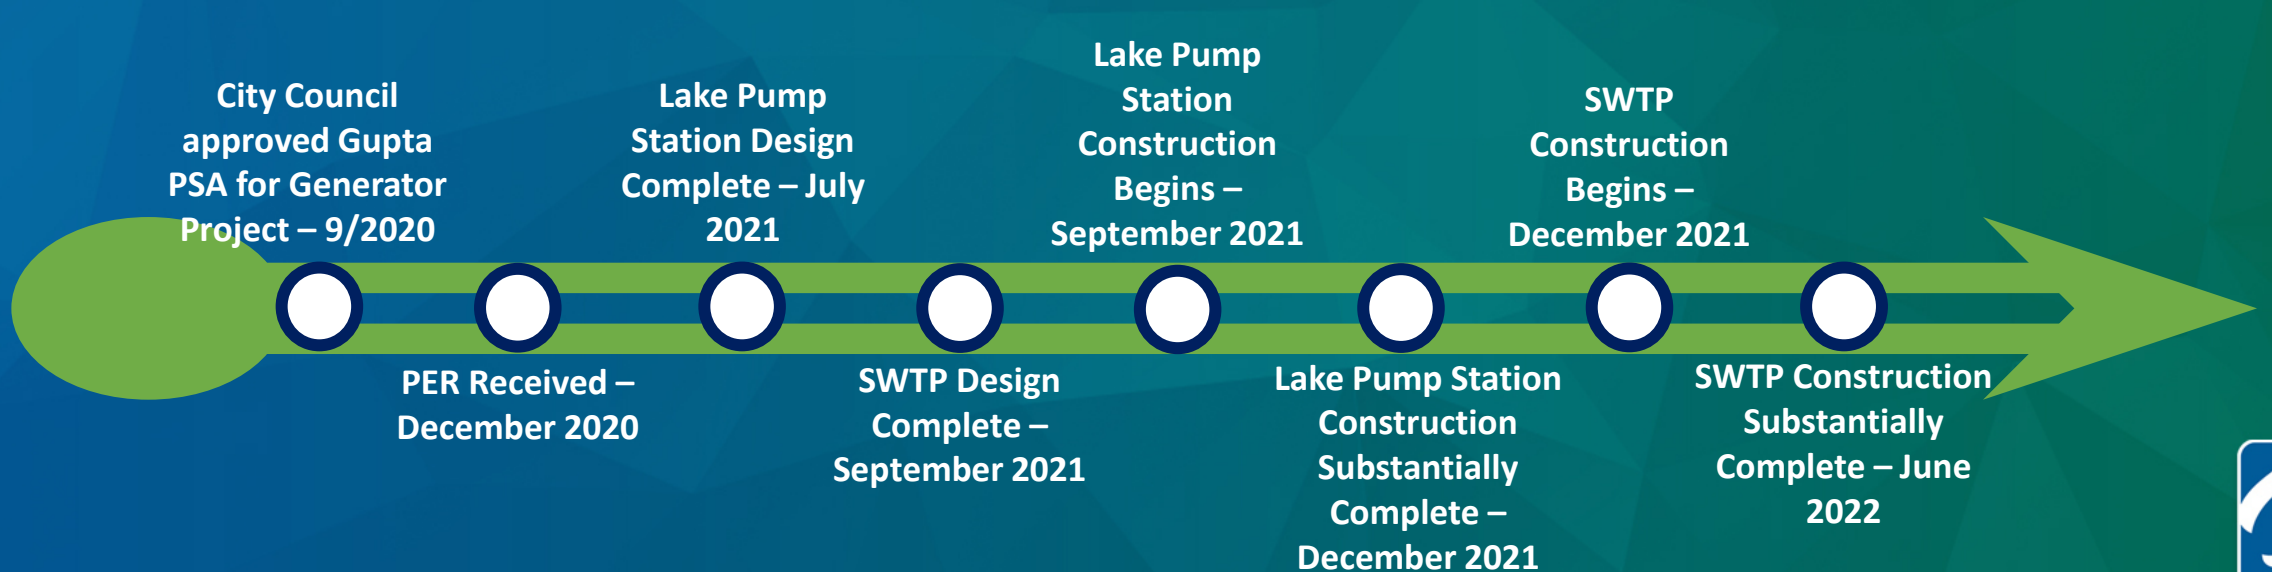

Permanent Generator Design

- Supplemental Agreement Modifications
 - Pulling the Lake Pump Station Permanent Generator bidding out of full design as that section is much simpler and can be done quicker.
 - Working with Oncor on a redundant feed that will need to be brought back to City Council for approval.
 - Specification and procurement of temporary generators for both the Lake Pump Station and Water Treatment Plant.
 - Advertisement and bidding services to accommodate a Competitive Sealed Proposal process to expedite timeline.

Schedule Changes

- This supplemental agreement brings the final design date for the Lake Pump Station to July 2021 with construction anticipated to start in September 2021 after Council approval.
- This supplemental agreement brings the final design date for the surface water treatment plant to September 2021 with construction anticipated to start in December 2021 after Council approval.

Staff Recommendation

Staff recommends approval of a Professional Services Supplemental Agreement in the amount of \$78,275 for professional engineering services associated with the Surface Water Treatment Plant and Lake Pump Station Standby Generator Project.
