INTERNATIONAL WALK TO SCHOOL MONTH**

WHEREAS, hundreds of children could be saved each year if communities take steps to make pedestrian safety a priority; and

WHEREAS, a lack of physical activity plays a leading role in rising rates of obesity, diabetes and other health problems among children and being able to walk or bicycle to school offers an opportunity to build activity into daily routine; and

WHEREAS, driving students to school by private vehicle contributes to traffic congestion and air pollution; and

WHEREAS, an important role for parents and caregivers is to teach children about pedestrian safety and become aware of the difficulties and dangers that children face on their trip to school each day and the health and environmental risks related to physical inactivity and air pollution; and

WHEREAS, community leaders and parents can determine the "walkability" of their community by using a walkability checklist, and

WHEREAS, community members and leaders should make a plan to make immediate changes to enable children to safely walk and bicycle in our communities and develop a list of suggestions for improvements that can be done over time; and
