INVOICE – WORK ORDER 535643

10.09.2024

Isaac Espinoza
City of Pflugerville

Attention: Isaac Espinoza

Subject: Relocation of Austin Energy Infrastructure for Immanuel Road Improvement Project

Dear Isaac Espinoza,

Austin Energy will be performing the following work associated with **Work Order 535643 at 14908 Immanuel Road:**

The relocation of overhead and underground facilities to clear conflicts created by the new roadway design for the Immanuel Road improvement project.

The total charge for this service is **\$286,871.79**, payable as described below before the work is scheduled for construction. Please note that this charge applies only to electric facilities and does not cover any charges that communication companies (pole attachments) may charge.

This invoice is valid for ninety (90) days. After that time has expired, charges will be recalculated, a new invoice will be issued, or the work order will be canceled after six months of no activity. Written notice will be provided before canceling the work order.

Service Details:

1. The service will be as specified in the approved design per [Austin Energy's Design Criteria](#).
2. Austin Energy requires a signed easement from the property owner covering all Austin Energy equipment before energizing the service. For additional information, please contact Tina Phiher at 512.322.6587 and reference the Work Order [number].
3. All metering installations must comply with Austin Energy's [Metering Specifications](#) and [Design Criteria](#). For further details, please contact our Metering Representative at AEDistributionMetering@austinenergy.com.
4. The customer service point is identified on the design print. Austin Energy will provide and install all wiring and equipment on our side of the service point. The customer's secondary electric system must include a full current neutral(?).
5. Austin Energy's facilities must always remain accessible for maintenance and replacement. Please contact the Scheduler at KramerWM@austinenergy.com to inquire about the construction schedule. For work requiring civil inspection an on-site preconstruction meeting will be required. Work Management will assist with scheduling an on-site meeting if needed.
6. Please share this letter with your general contractor, electrician, or relevant agents.
