Re: The City of Pflugerville Colorado River Raw Water Intake Screen Replacements Project – Contractor Award Recommendation

Dear Mr. Pritchett:

On September 9, 2021, the City of Pflugerville opened bids for the above referenced project. Three competitive bids were submitted. All bid packages contained all the required information (see attached). Based on the bid tabulation Underwater Construction Corporation of Houston, Texas is the low bidder.

The City of Austin and City of Pflugerville have recently completed projects with Underwater Construction Corporation that are similar to the scope of work for the City of Pflugerville's Colorado River Raw Water Intake Screen Replacements project. Based upon the completeness of their bid package, qualifications, and references, Walker Partners recommends the City of Pflugerville award this project to Underwater Construction Corporation.

We will prepare conformed drawings and specifications as needed for the contract and contractor.

Sincerely,

Joseph W. Jenkins, P.E.
Project Manager
