What areas or programs would you like to see improved or expanded?

The drop by drop landscape program and the community garden could easily be more improved by educating the citizens of Pflugerville about the programs and what benefits they have to offer. Improvements and expansions could also be made in the youth athletic facilities, especially those equipped for girls athletics, because they're not thoroughly supported.

What are the biggest challenges that you see facing Parks and Recreation in Pflugerville in the next 5 years?

Within the next five years, the housing development will greatly expand as the population of Pflugerville grows. It will be very hard for the Parks and Recreation to keep the integrity and admirable standard of the current parks, while trying to build more parks and other recreational facilities for the newly developed areas. Achieving the Parks and Recreation's goal of having a park within a 1/4 mile of every resident will further be challenged than it currently is as the amount of developed land increases, thus creating a vast region of people in Pflugerville with a high demand for parks/ recreational facilities.

Please provide any additional information you feel would be useful to the City Council in considering your application. Please use additional sheets as necessary. A cover letter and/or resume may also be submitted with the application.
