

Dear Community Leader,

I have been asked to consider serving a two year term as a member of the Board of Directors' of the Travis County Central Appraisal District for the Northeast portion of Travis County. The process dictates that a person is first nominated by at least one of the taxing entities of this area. Then when nominations are received by the Appraisal District they are to prepare a ballot for the entities to use to vote on their choice for the position.

Please consider my qualifications as you consider nominating a candidate.
