PCDC Board Update

March 25, 2026

Updated March 26, 2026

Executive Summary

On February 9, 2026, the Pflugerville Community Development Corporation (PCDC) and the City of Pflugerville convened with JLL for a visioning session to chart the strategic direction for Project Nexus - the transformation of 53 acres into a regional destination that will elevate Pflugerville's quality of life and economic vitality. The session brought together PCDC, city leadership, and staff to establish foundational goals, identify community priorities, and define success criteria for this catalytic development opportunity.

"Create a vibrant 53-acre regional destination that enhances quality of life in Pflugerville, fosters community engagement, and drives sustainable economic growth through thoughtful planning, public-private partnerships, and a collaborative, phased development approach."

What We Heard: Community Aspirations

• **Authentic Identity** – Extraordinary development that reflects Pflugerville's unique demographics and character, prioritizing local/regional businesses over chains

• **Economic Catalyst** – Regional destination generating sales tax revenue, job creation, and tourism through meeting/event/convention space

• **Quality of Life** – Third places for community gathering with full-service amenities leveraging Lake Pflugerville proximity

What We Heard: Key Concerns

• Stakeholder alignment and managing community expectations throughout the process

• Securing adequate funding and navigating market volatility

• Finding the right educational/institutional anchor partners

• Ensuring walkability, connectivity, and effective lake integration

PCDC Mission

“Our mission is to actively pursue opportunities to become a regional employment center, in the areas of business retention, expansion and attraction as a means of promoting economic development within the City of Pflugerville, providing quality job opportunities for local citizens to be able to work locally and have the option to replace commuting time with family and community time.”

Pflugerville 2040 Vision Statement

“Pflugerville thrives as a modern and charming community. Its diverse culture and heritage, atmosphere of inclusion, first-rate parks, vital infrastructure, employment opportunities, and entertainment options make Pflugerville a desirable place. These elements create a vibrant city with a high quality of life that fosters an environment appealing to people from all backgrounds.”

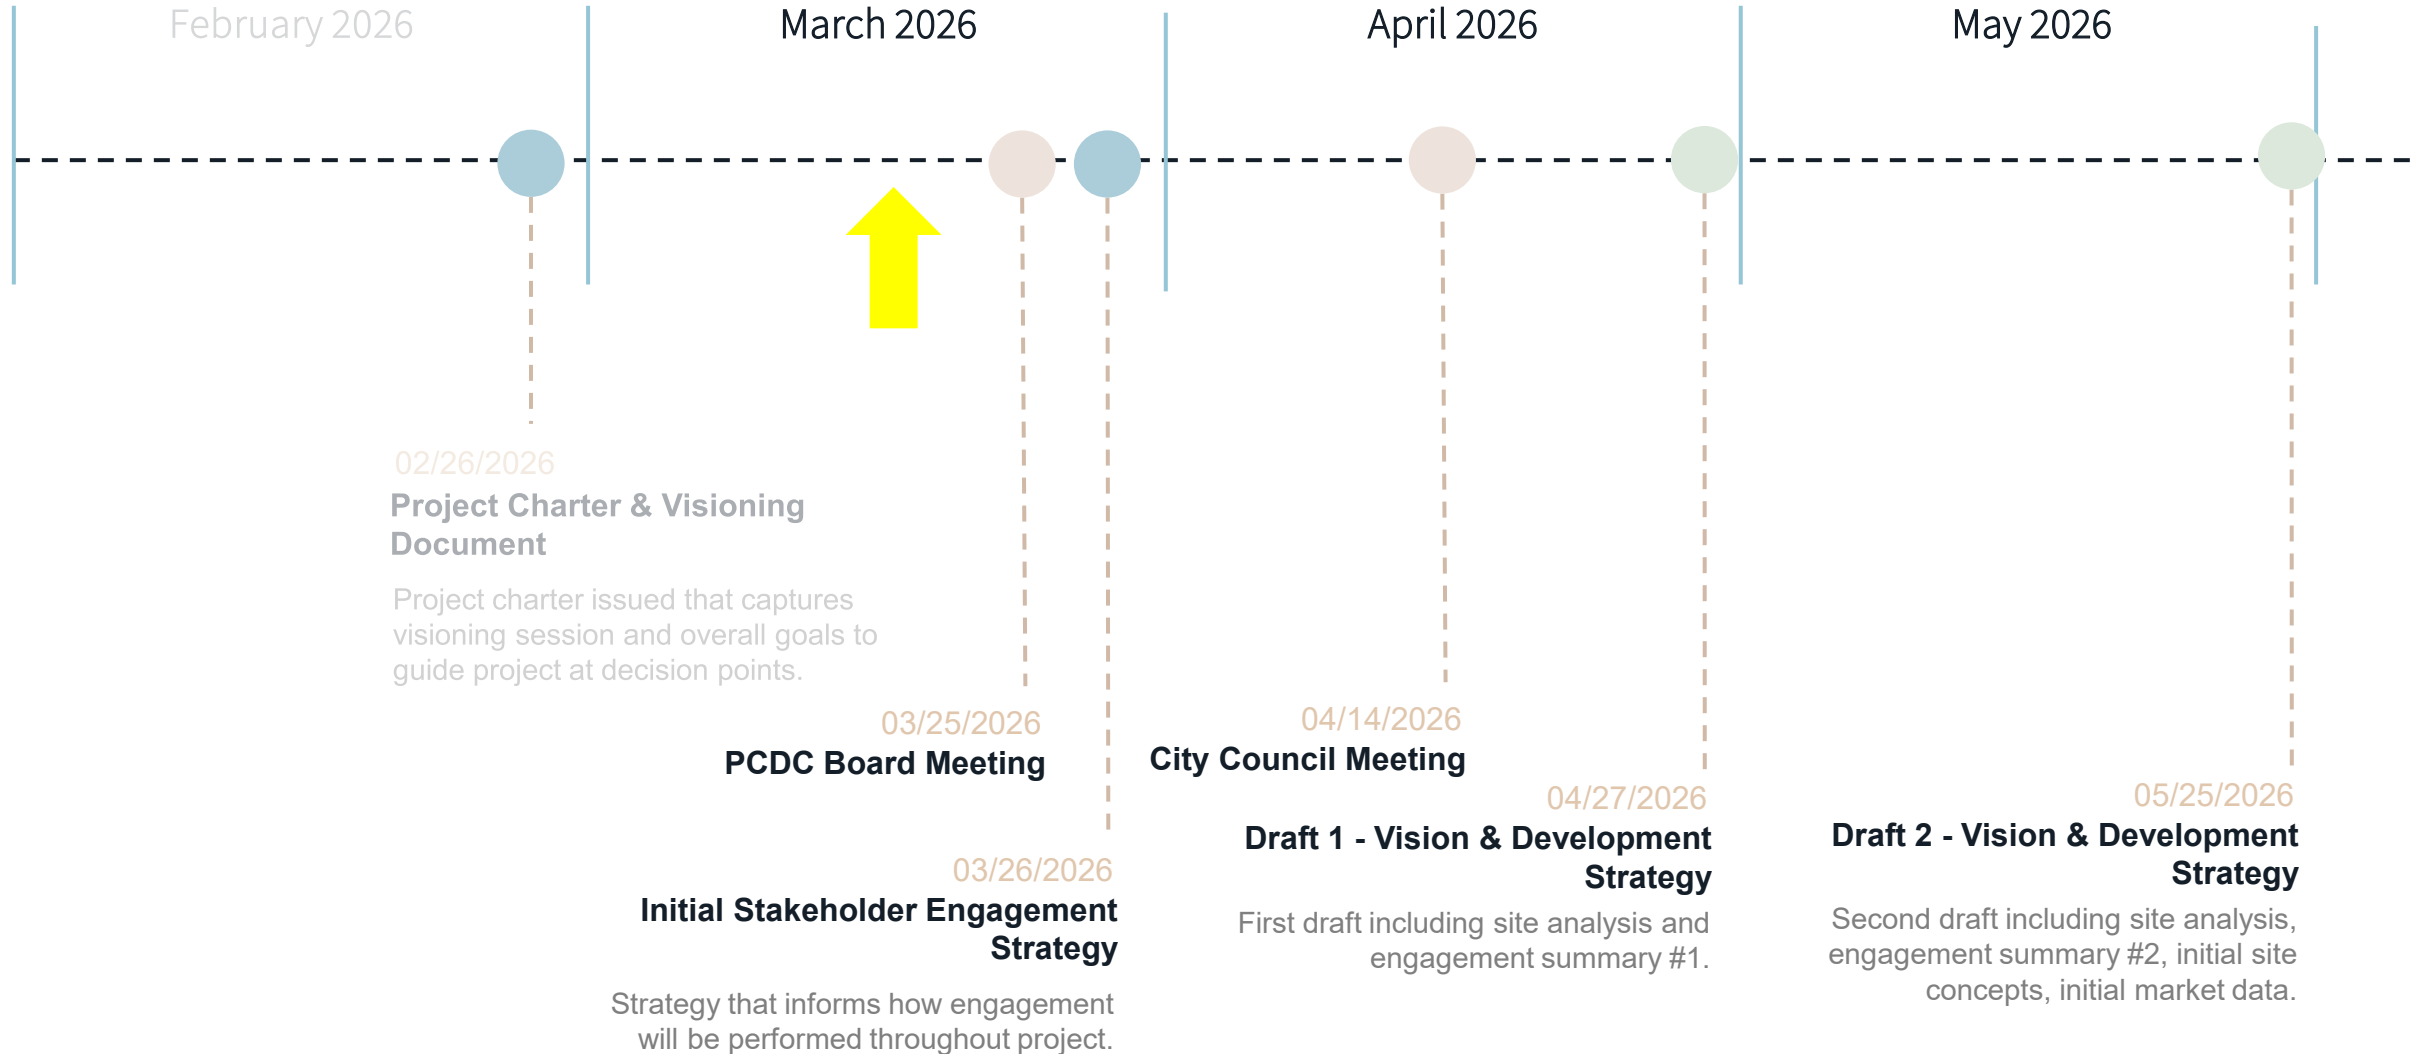

“

*Create a vibrant 53-acre regional destination that **enhances** quality of life in Pflugerville, **fosters** community engagement, and **drives** sustainable economic growth through thoughtful planning, public-private partnerships, and a collaborative, phased development approach.*

Demand estimate:

- ESRI (Environmental Systems Research Institute) uses Geographic Information Systems (GIS) to allocate historical Austin population data into submarket boundaries defined by Real Page.
- The estimate is based on a 14-year average ratio. This ratio is calculated for each submarket by dividing “Annual submarket demand by Annual total submarket population”
- This ratio is then applied to the forecasted total population in each submarket for the years 2025-2029.
- The results are summed up to provide the overall demand estimate.

Disclaimer: Estimates are based on long-term averages and may not reflect sudden fluctuations in Market or Submarket demand.

Successful engagement

What do you hope to gain from the engagement both internally and with the community of Pflugerville?

Has any engagement on this project been completed before?

What key community stakeholders should the team prioritize?

How should community partnerships be leveraged or integrated to maximize the project's value and impact for Pflugerville residents?

01 Focus engagement on **site-specific elements where community input can directly influence project outcomes**, using targeted prompts to guide feedback on actionable topics.

02 Utilize proven methods including **community events, online meetings, and steering committees**, with educational components and repetition of key concepts to build support for design decisions.

03 Prioritize **education about city objectives and project benefits** to help the community understand what the city aims to achieve through this development, and how it supports the Pflugerville Strategic Plan.

04 Present **future-oriented scenarios and connect the project to broader city initiatives** like Parks Programming and Entrepreneurial Development to demonstrate a holistic approach addressing multiple community needs.

Example Stakeholders:

- Chamber of Commerce and Rotary Club.
- Local school district.
- HOA and neighborhood leadership.
- Equity Advisory Board.
- City departments (Parks & Rec, Planning, Finance).

Example Engagement Methods:

- Form a steering committee.
- Create a dedicated website with social media updates.
- Host community events and open houses.
- Utilize existing events on the Parks program calendar to "go where people are."
