Subject: Stone Hill Town Center - Car Charging Stations
Attachments: SHTC_PrelimStudy_Site_Plan.pdf

Trey,

In follow-up to our phone conversation, NewQuest Properties has approved for the City of Pflugerville to install 4 charging stations at Location B in the four parking spaces that are on the south end of the row on the east side of Hilltop Commercial across from Cinemark.

Our understanding is the City will install, separately meter, service and maintain the charging stations, and the power will come from the transformer located near the installation site.

Please forward an electrical plan (showing where lines will be located) to Chris Ostermann for review and approval prior to installation.

Should you have any questions regarding electrical at the property please contact the electrical contractor for Stone Hill Town Center, Mike Jones with M&S Electric 512-635-0279.

Thank you,

Marsha Mucks
