

Installation of Bipolar Ionization

Air Purification Systems

Scope of Work

- The project will include Furnishing and installment of ionization units in all City facilities for air purification as a safety measure in protecting City employees and residents that may interact with staff.

Schedule

- 9/8/20: Council Consideration
- 9/9/20: Issue Purchase Order
- 9/10/20: Begin procurement and installation
- 10/20/20: Project completion
- 10/30/20: Final date for processing CARES Act funded projects and purchases.

Recommendation

Staff recommends approval of a purchase for installation of bipolar ionization air purification systems from The Brandt Companies, LLC in the amount of \$95,546.00, utilizing BuyBoard purchasing cooperative and approved funds through the CARES Act, and authorizing the City Manager to execute same.
