# INSPIRATION

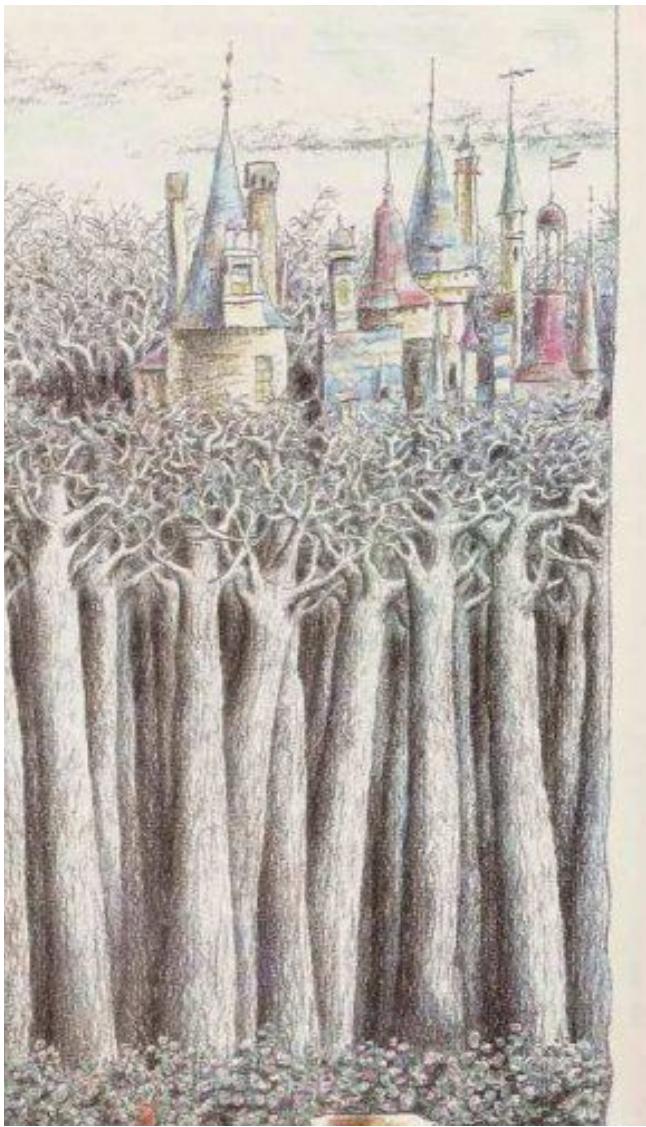

The mural draws inspiration from the intricate relationship between pollinators and Texas plants. Against the backdrop of a Texas sunset, bee piloted pollinator planes follow nectar guides on a whimsical journey towards their Queen Bee. This design captures the magic of migration, explores the contrasting colors in which pollinators see flowers, and references old fairy tales.

**POLLINATORS**  
**TEXAS WILDFLOWERS**

## THEMES

**FANTASY**  
**NARRATIVE**

**MOVEMENT & MIGRATION**  
**COMMUNITY & TEAMWORK**
