What areas or programs would you like to see improved or expanded?

I believe the Community Garden has plenty of room to expand. Not many citizens of Pflugerville know about the program, but would be interested if they did know. With an addition of people, it would help to get the Community Garden better equipment and make the garden even more beautiful. I would also like to see some more classes added to the Recreation center . There should be more of a variety for all ages and for all interests, especially in the dance classes.

What are the biggest challenges that you see facing Parks and Recreation in Pflugerville in the next 5 years?

In the next five years, the Parks and Recreation will face the challenge of trying to serve all of the citizens in Pflugerville with amenities. Currently, there are not enough parks to serve the 50,000+ citizens, nor is there convenient access to for everyone to the recreation center and city pools. It will be a challenge to try and meet the needs of the citizens, while also keeping up the integrity and admiral standards of the current parks, recreation centers, and pools. On top of the current residents with minimum or inconvenient access to amenities, the population in Pflugerville will only increase as even more people move here and need access to these amenities.

Please provide any additional information you feel would be useful to the City Council in considering your application. Please use additional sheets as necessary. A cover letter and/or resume may also be submitted with the application.
