Chairman Anker stepped back onto the dais and chaired the rest of the meeting.

Emily Barron presented this item. This item was heard for public hearing at the September 16, 2013 P & Z meeting. A decision was tabled to allow staff to provide a Traffic Impact Analysis (TIA). The applicant presented a draft TIA.

Chairman Anker asked if there was a reason why the TIA was marked draft and not final. Ms. Barron answered that the TIA is a draft because the road that the project is abutting a TXDot road. Staff as well as TXDot are reviewing the TIA and will approve it once the applicant has addressed any specific comments or questions both entities have at the time of platting.

Chairman Anker asked if the City Engineer has looked at the TIA and signed off on it.

Ms. Barron answered yes.

Commissioner Flores asked if there will be concerts at the waterpark.

Floyd Akers, Director of PCDC, answered yes, there is an indoor amphitheater that is part of the waterpark project, it is not a huge venue and Mr. Akers don't think it will hold more than 1500 people maximum. Mr. Akers mentioned that the TIA showed, during the maximum traffic time they estimate less than 1000 trips a day in and out of the park, according to TIA. Some of the recommendations in the TIA are to realign the lanes coming from north bound FM 685 heading south, creating a left turn lane for entry into the park; the stacking distance of that lane could handle about 20-25 cars. The stacking distance internally into the park is for about 400 cars before they get to the actually parking lot so the cars are not on the street. Mr. Akers also mentioned that the parking lot is being redesigned to hold about 550 cars total. There is also be a deceleration lane proposed on FM 685 heading northbound into the park.

Scott Feldman with Alliance Transportation Group spoke the impact and design of traffic on FM 685.

There was much discussion among the Commissioners and Staff on this item.

Omega Baker, residing at 805 Pigeon Forge spoke in opposition to the waterpark because of the amount of water proposed to be used.

Vice-Chairman Blackburn made a motion to approve the rezoning request. Commissioner O'Bell seconded that motion. All in favor. Motion carried unanimously.
