Subject: Appreciation for the Pflugerville Art in Public Places Program

Dear Pflugerville Planning and Zoning Commission Members,

I am writing to express my gratitude for the establishment of the Art in Public Places Program and the recent installation of public art in Pflugerville. Public art has proven to be a catalyst for creating a sense of community and togetherness, and the new art installations encourage creativity and possibility. The murals and sculptures at the Lake and the Best Little Plaza have not only beautified our public spaces but also sparked joy and inspired playfulness in the hearts of all who pass by.

I am thrilled to have the opportunity to have a mural installed on the building at 100 W Pecan St. More public art available throughout the city ties together the existing pieces and encourages people to take photos and share their experiences from visiting the public art in Pflugerville. The sketches of the mural to be installed on our building have vibrant colors and a unique design which will be a point of attraction for both residents and visitors alike. The addition of a mural to our building, as well as other downtown art installations, will contribute to the overall aesthetic appeal of our downtown area and be in alignment with the Downtown Action Plan.

As a downtown business owner, I am deeply appreciative of the collaborative efforts between local businesses like mine and the city in strengthening community ties in Pflugerville. Working alongside Erin Sellers has been an absolute pleasure, and I look forward to future collaborations with the city to continue fostering community togetherness and vibrancy.

The art installations bring a fresh sense of energy and creativity to our community. It is a joy to see art on the trails, at parks, and on City buildings! Thank you for your dedication to the arts and for making Pflugerville an even more vibrant place to live, work, and thrive. I look forward to witnessing the continued growth of our city's public art scene and the sense of community it fosters.

Sincerely,  
Mary Foss
