## **Exhibit 1 Scope of Services**

### **Purpose**

In November of 2020 the City of Pflugerville received voter approval via a bond election to construct a new Multi-Generational Recreation Center which is currently proposed to be constructed on the 29-acre site recently purchased by the City at the northwest corner of FM 685 and Pecan Street.

### **Scope and Fee Proposal**

ECM International, Inc. is pleased to present our scope and fee proposal for the initial pre-planning phase of the project for the City of Pflugerville, Texas. This proposal covers the initial planning services that will be executed in conjunction with Hayat Brown, the P3 Financial Advisor consulting firm who will be investigating the public private partnership opportunities which may be available for the anticipated City Hall Complex which will be sited on the aforementioned 29-acre site. ECM's tasks will be as follows and support the other team members efforts as they unfold.

### **Preliminary Project Status Assessment**

- ECM will review existing baseline data and identify any information or financial data that may be required.
- ECM will perform an initial review of master plan and programming documents, geotechnical reports and environmental assessments.
- ECM will review cost estimates and incurred costs associated with the project.
- If necessary, ECM will issue a report identifying any shortfalls in the information that may impact the execution of the projects.

### **Detail Initial Project Activities**

- With the input from the City's staff ECM will develop a Total Project Cost (TPC) budget for the Recreation Center based on alternate delivery methods.
- Following development of the TPC budget ECM will provide a high-level comparative cost analysis based on historical costs of similar projects appropriately adjusted for current market conditions.
- Based on ECM's experience with projects of similar scope and size we will develop a Master Project Milestone Schedule which will be coordinated with the master schedule for overall development of the site.
- ECM will work directly with Hayat Brown to coordinate siting of the Recreation Center and provide necessary information for proper financial feasibility analysis of the overall development.
- Should the need arise during the feasibility analysis ECM will assist the Project Team with site assessments.
- Utilize Project Definition Rating Index (PDRI) process to develop detailed project information.
- To assist in refining the programmatic requirements of the Recreation Center ECM will conduct public and community involvement meetings, administer public polls and compile the data for use by the project team.
- ECM will assist the Project Team in reviewing all available utility information and discerning current capacities and future requirements to support the anticipated buildout of the site. ECM will also

facilitate meetings with the third-party utility stakeholders to determine required permitting, easements, MOU's, etc.

- During this initial phase ECM will initiate the development of a Project Execution Plan which will identify the key stakeholders, their roles, the appropriate lines of communication and dispute resolution methodology.
- ECM will assist the City with identifying the best method of sharing information and if requested will implement the use of web-based project management program for documentation archiving and sharing.

Based on the above outline of services that will be conducted during the first thirteen (13) weeks of this engagement, starting on February 8, 2022 and ending on May 6, 2022, ECM is proposing a fee in the amount of \$135,440.00. We have also included \$500.00 for mileage. We will submit invoices on a monthly basis with appropriate backup to support the charges.
