Mayor Gonzales opened the public hearing and read the item to include the caption of the ordinance to be considered on first reading. Ms. Barron provided information on the item. She stated that staff recommends approval and the Planning and Zoning Commission recommended denial. She stated that a supermajority (6 members in favor) of Council would be needed for approval. She answered questions of the Council. Paul Linehan, representing owner/applicant Tim Timmerman, presented. Mr. Metayer asked regarding CL3. Mr. Linehan indicated that staff has recommended a very good zoning (CL4) for this transitional area but they are not against CL3. Mr. Linehan completed his presentation. She stated that they are asking for a 300-foot greenspace and trails to increase the walkability of the neighborhood, not more houses. She stated that this CL4 with a hypothetical plan does not mean that they will get a Domain. She asked that the delay zoning until there is a plan.

Jeff Lopez, Bohls Place resident, stated to agree with his fellow residents that have expressed their concerns for zoning to CL4 without hard plans in place. He stated that Bohls is uniquely situated and with the plans being put in place and in close proximity to Bohls, they are going to be landlocked by all the development. He asked for consideration and strongly requested a greenbelt buffer. He stated that he strongly hopes they will consider that. He stated that he also has concerns for opening Firebush and Cosmos Way.

Mayor indicated that there were no additional registered speakers.

Council discussion followed with Ms. Barron. Mayor Gonzales asked Mr. Zech if a motion were to be made to approve the zoning to CL3, if that would need Planning and Zoning consideration as well. Mr. Zech stated it would depend if it is a greater or lesser use. He stated that regardless it would require a supermajority to approve. Mayor Gonzales suggested that they could amend the zoning to CL3 in the 300-foot buffer. Mr. Zech confirmed with Ms. Barron that CL3 is a more restrictive zoning district. Mr. Zech indicated that they could do that but it would require a supermajority affirmative vote.
