Change Proposal Request No. 9 (Not a Change Order)

Project Name: Pflugerville Parkway West/Victoria Station Blvd. Improvements	Owner's Project No. (if applicable):	
Project Owner: City of Pflugerville	Regulatory Agency Project No. (if applicable):	
HDR Project No.: 09669-88703	Initiated by: ___ Engineer <u>X</u> Contractor	Date: 12/11/2009
Contractor: J C Evans Construction		

Attention:

The following change in the contract on this project is proposed.

- A breakdown of cost SHALL be attached.
- Work shall not commence until authorized by the Owner.

Description of the Proposed Change:

A credit has been issued for non-performed work in association with the relocation of the Highland Park Subdivision Sign. These credits arise from the design modification of the subdivision sign which deviates from the proposed design. Credits included in this CPR are as documented on the attached sheet submitted by CMA on August 8, 2009. This work was originally added to the project in Change Proposal Request No. 5 and Change Order No. 3. The decrease in the contract for this change is \$1,773.07.
During the completion of the work associated with CPR #11 it was determined by the Manville Water rep at the site to not require the connection of an exiting 8" water main to the 16" water main being lowered to facilitate construction of the intersection improvements. This decision did require the addition of work not originally covered in CPR #11. There was also a decrease in the cost of CPR #11 associated with this change that was reflected in the final numbers in CO #5. The additional work items included the removing of an existing water valve and vault structure and capping the end to the 8" water main. The increase in cost for this additional work is \$846.00.
TOTAL CPR #9 = Decrease of \$927.07

To: Mike Ehrhardt
Subject: \$400 c/o for Pflugerville trees

Mike,

We are going to hand dig around the electrical line and move the tree with a 8k forklift next Monday... I apologize for not going thru you first for the up-charge estimate, but April was looking for a quick quote while her boss was onsite so that we could keep things moving.

How do you wish to handle the \$400 increase now that we already have a \$2k contract?

-Jon

**Change Proposal
Request No. 17 REV.
(Not a Change Order)**

Project Name: Pflugerville Parkway West/Victoria Station Blvd. Improvements (Shultz Lane)	Owner's Project No. (if applicable):	
Project Owner: City of Pflugerville	Regulatory Agency Project No. (if applicable):	
HDR Project No.: 09669-88703	Initiated by: ___ Engineer ___x_Contractor	Date: 3/16/10 Revised 4/6/10
Contractor: J C Evans Construction		

Attention:

The following change in the contract on this project is proposed.

- A breakdown of cost SHALL be attached.
- Work shall not commence until authorized by the Owner.

Description of the Proposed Change:

Due to existing rock subgrade on Shultz Lane from 17+50 to 23+83, JCE proposes deleting the 8" lime treatment and adding 8" Flex Base. This will require an additional 8" of street excavation. This will also help with our ability to get the safety slope put back in place each evening due to the proximity to traffic. Cost is an additional \$7,663.80, but JCE proposes splitting the cost 50/50 with the City for a net add of \$3,831.90. Also delete retaining wall qty from Shultz Lane and Add 200 SF of same wall along back of sidewalk at Regis. Please see the breakdown below.

Delete Lime (hyd, com or qk)(slry) or qk(dry) -78 tons @ \$147.00 per ton = -\$11,466.00

Delete Lime Trt (exst mtl)(8") -3280 sy @ \$1.85 per sy = -\$6,068.00

Add Flex Base (comp in pl)(ty A gr 4) (8") 722 cy @ \$30.00 per cy = \$21,660.00

Add Excavation Roadway 722 cy @ \$4.90 per cy = \$3,537.80

Delete Retaining Wall (Concrete Block) 262 SF @ \$28.00 per SF = -\$7,336.00 (Shultz Contract)

Add Retaining Wall (Concrete Block) 200 SF @ \$28.00 per SF = \$5,600.00 (Pflug Pkwy Contract - Regis)

Total = \$5,927.80

50/50 Split Proposed Flex Base Changes = \$3,831.90

CPR 17

Total = \$2,095.90
