Subject: Suez Water Technologies & Solutions (Suez) Sole Source for the Ultrafiltration Membrane System at the City of Pflugerville Water Treatment Plant.

Dear Sir,

This letter is provided for a Sole Source Purchase to obtain Suez sourced membranes and membrane services in support of the City of Pflugerville Water Treatment Plant, originally supplied by Suez.

Suez has the patented components that are inherently specific to the existing equipment within the Water Treatment Plant. Also, Suez has the unique capabilities to provide not only the replacement membranes, but the technical and engineering services distinctive to the supply, installation and support of these hollow fiber Ultrafiltration (UF) membranes.

The City of Pflugerville will immediately receive the assurance and support with their continuing operational activities for the Water Treatment Plant.

If you have any questions at all, please do not hesitate to contact me.

Kindest Regards,

A handwritten signature in black ink, appearing to read "Craig Brown", with a long horizontal flourish extending to the right.
