- B. LICENSOR shall have a right at any and all times upon no less than 90 days written notice to LICENSEE, its heirs, representatives, successors, or assigns, to take possession of and use all or any part of the License Area in the event that such use be reasonably desired or needed by LICENSOR.
- C. LICENSEE shall have the right at any time upon no less than 180 days written notice to LICENSOR, to relinquish the use and possession of all or any part of the License Area as it may so determine and to cancel said license as to that part so relinquished.
- D. Upon the lawful termination of a license agreement issued hereunder, in whatsoever manner such termination may be made, LICENSEE and its heirs, assigns, successors and representatives, bind and obligate themselves to restore the License Area to the original condition as it existed prior to any construction, or to fulfill any other reasonable conditions for the restoration of the License Area which may be acceptable to LICENSOR, and should LICENSEE or its heirs, assigns, successors, or representatives fail or refuse to do so within 90 days after such termination then in that event LICENSOR may do or have done the work necessary for such purpose at the sole cost, risk, liability, and expense of LICENSEE, its heirs, assigns, successors, or representatives.
- E. Upon written consent of LICENSOR, acting by and through the City Engineer or their designee, the Licensee may, at its sole cost, risk liability and expense, including public liability and property damage insurance in the amounts specified in Subsection F not less than \$200,000.00 and insurance for property damage in the sum of not less than \$100,000.00 covering such improvements and construction, remove, reroute, reconstruct, lower or raise any existing utility lines, public or private sewer lines, water lines, including storm sewers, pipes or conduits presently located within a LICENSOR easement or right-of-way, provided that before changing or interfering with any such

utility lines as described aforesaid, LICENSEE shall notify the respective utility companies, including LICENSOR, owning or operating the aforesaid utility lines, concerning any and all changes, modifications, rerouting of, or any interference whatsoever with the aforesaid utility lines, pipes, or conduits. Any necessary changes, modifications, rerouting, or interference with the aforesaid utility lines, pipes or conduits shall be done under the direction of the representatives of the respective utility companies or LICENSOR, as the case may be.

- F. Such policy shall name LICENSOR as additionally insured, when required by the City.
- G. After the completion of any construction of LICENSEE facilities within a License Area under the terms of this Agreement, should LICENSOR desire to lay or construct its utility lines, including sewer lines, water lines, or any other pipes, or conduits under, across, or along the Easement Area or other LICENSOR right-of-way, any and all additional cost for the laying or construction of the aforesaid utility lines, including pipes and conduits, within said Easement Area or other LICENSOR right-of-way which may occur by reason of the existence of said LICENSEE facilities, shall be paid to LICENSOR by LICENSEE, its heirs, assigns, successors, or representatives.
- H. Solely as between LICENSOR and LICENSEE, and not for the benefit of any other person, LICENSEE, by acceptance of such license, hereby waives any claim it, or any heirs, successors, or assigns might have for damages for loss of lateral support to any other improvements hereby contemplated which loss of lateral support might be occasioned by any improvements which LICENSOR, its assigns, grantees, or licensees might install or construct.
- I. **LICENSEE, or its heirs, successors, assigns, or representatives, by the acceptance of such license, agree, obligate and bind itself to indemnify and does hereby indemnify and hold and save forever harmless LICENSOR from all liability, cost or damage on account of LICENSEE's use, occupancy and maintenance of any part of a public street, roadway, sidewalk or easement or LICENSOR right-of-way and the structures and facilities therein, including by way of example, but not by way of limitation, any buildings, piers, fences, pools, walls, patios, decks basements, etc. constructed on the surface or the subsurface of any easement, public street or right-of-way. This indemnity shall continue in force and effect during the existence of any license issued under this Agreement or during the existence of any LICENSEE facilities constructed within the License Area pursuant to this Agreement. This paragraph shall survive termination of the Agreement.**
- J. No transfer or assignment of any license granted under the terms and provisions of this Chapter shall be effective unless and until:

- a. LICENSEE has, in writing, advised the City Engineer or their designee of the name and mailing address of the transferee or assignee; and
 - b. The transferee or assignee has furnished the City Engineer or their designee its written agreement to assume and perform all of the duties, covenants and obligations of the license; and, thereupon, each provision of the license shall be binding upon, and inure to the benefit of, the transferee or assignee of LICENSEE.
- K. The breach or violation of any one of the terms, provisions, or conditions set forth in this Agreement, or of any law, ordinance, or other permit which shall apply to LICENSEE's use of the License Area, shall be sufficient to constitute grounds for the cancellation and forfeiture of the license hereby granted. Any such cancellation and forfeiture may be exercised upon 10 days written notice by LICENSOR to LICENSEE, its heir, representative successor, or assign, unless, at the expiration of such time, any such violation or breach has ceased or LICENSEE, in the sole determination of the City Engineer or their designee, is proceeding with all diligence and good faith to remedy any such violation or breach and thereafter continues without delay with such remedial work or correction until such violation or breach has been completely remedied.

If any person or the owner of land encumbered by the Easement Area reveals by their application for a building permit or other authorization of LICENSOR that any new, remodeling, or renovating construction is desired to be made within any part of the Easement Area, the license granted herein will be reviewed for compliance with the terms and provisions of this Agreement, and in addition, be subject to the following conditions:

1. The proposed use of a public street, roadway, sidewalk, or easement or LICENSOR right-of-way by any person or the owner of land encumbered by the Easement Area shall not interfere with LICENSOR's lawful use thereof; and
 2. The proposed construction within a public street, roadway, sidewalk or easement or other LICENSOR right-of-way shall be in accordance with LICENSOR's Construction Specifications and Standards Manual, Unified Development Code, and any other applicable ordinances and regulations.
- L. At all times during the construction and building of any structure within the Easement Area or other LICENSOR right-of-way:
- a. Dirt and other material removed from the building and construction of any such structure within the Easement Area or other LICENSOR right-of-way shall not be allowed to remain within the Easement Area, but all such dirt and other materials shall be removed immediately at the sole cost, risk, liability and expense of LICENSEE; and
 - b. All excavations and obstructions of any kind where allowed during the period of LICENSEE's construction, shall be properly barricaded and covered over subject to the approval of the City Engineer, or their designee.

M. After the completion of construction within the License Area, LICENSEE shall at its own cost and expense replace any sidewalks and the surface of any streets, driveways, etc. that were, at the sole determination of LICENSOR, damaged or removed in the construction of any structures or facilities, in a condition equally as good as they were immediately prior to the time of excavation or construction, and all of such sidewalks, streets, driveways, etc. shall be maintained in a good and useable condition for two (2) years after said sidewalks or streets have been replaced, all subject to the approval of the City Engineer or their designee. All damage, if any, to said sidewalks and streets caused by the construction, use, maintenance and operation by LICENSEE shall be repaired by and at the cost and expense of LICENSEE. In the event LICENSEE fails or refuses to proceed with diligence with the performance of any work in connection with the replacement, rebuilding or resurfacing of streets, sidewalks, driveways, etc. within 30 days after receiving written notice from LICENSOR, LICENSOR may do such work or cause same to be done, all at the sole risk, cost, liability and expense of LICENSEE.

This Agreement shall be effective upon the acceptance of the terms hereof by the LICENSEE, as indicated by the signature of LICENSEE and the approval thereof by LICENSOR.
