Escape from Frankenstein's Lab

Patrons 18 and up celebrated the 200th anniversary of the publication of Mary Shelley's Frankenstein with an escape room at the Heritage House Museum.

Groups had to work together to solve a puzzle to escape the lab. Those that did not solve the puzzle in time were held for future experiments.

The Friendly Witch

The Friendly Witch was at the library on Wednesday, October 31 for a special storytime. New Librarian Meg Millar reprised her role this year and read books, sang songs, and made a craft. Children were encouraged to wear costumes and take a picture with the witch after the storytime.

Painted Pumpkins

Teens ages 12-18 can visit the Pfab Lab to try a different craft or piece of equipment each month. This month, tweens painted a book-themed pumpkin. Papier-mache pumpkins were provided while supplies lasted.
