Abigail Rose, Planner II presented this item.

Ms. Rose gave an overview and history of the property and surrounding properties. She talked about the zoning history of the property and how it came to be zoned General Business 1 (GB1). She gave an overview of the

Staff recommends approval of the request. Chair Flores asked about whether the property has access through the Police Department property. Ms. Rose stated that the property would not have access through the Police Department. Steve Galloway, representative for the owner, spoke about the property and why the owner would like to rezone the property. The owner feels that rezoning the property will make the property easier to sell. The rezoning opens up some land uses that were previously precluded that the seller feels will help market the property. Commissioner Mitchell motioned to close the public hearing. Erin Sellers, AICP, Senior Planner presented this item.

Ms. Sellers talked about the proposed changes to the UDC by incorporating an Appendix B. Appendix B outlines the application submittal and content requirements related to development applications. Appendix B provides provisions for the content requirements for electronic review, and adds flexibility in the land title survey requirement, i.e. survey can be older than two months as long as there is a certification from the surveyor that no other easements were created after the survey was completed.

Commissioner Mitchell asked why the requirements specifically labeled a service to use when sending files for electronic review. Ms. Sellers stated that the service was given as an example and it does not have to be the specific service listed.

Commissioner Guerrero asked why the City is asking for vector based PDF and what software uses the vector based PDF. Ms. Sellers stated that the City uses Bluebeam for electronic review. Mr. Frazzell stated that vector based PDF allows the reviewer to view the document and not lose scalability. If they zoom the dimensions are kept and the calculations that are required during review can be made accurately. Commissioner Guerrero stated that he has run in to difficulty when this type of PDF has been requested a municipality before. Commissioner Guerrero asked how final sets would be handled by the City. Mr. Frazzell stated that final paper copied would still be needed for signature by the City.
