Re: Central Wastewater Treatment Plant Expansion

Dear Ms. Davis:

Competitive sealed proposals for the Central Wastewater Treatment Plant Expansion Project, Phase 1 were received by the City of Pflugerville on September 26, 2019 from three Offerors. Plus Six Engineering (PSE) has reviewed the three proposals, conducted reference checks on Offerors' representative projects and key personnel and prepared selection worksheet materials.

On October 8, 2019, PSE participated in interviews with the two shortlisted Offerors.

Based on review of all proposals, references, interview and evaluation discussions with City staff, PSE concurs with the determination made by the City's proposal review committee that the proposal of BAR Constructors, Inc. in the amount of \$41,863,737.95 and schedule to achieve substantial completion of 693 days, is the best value proposal to the City of Pflugerville.

We recommend award of the contract to BAR Constructors, Inc. in the amount of \$41,853,737.95 for the construction of the Central Wastewater Treatment Plant Expansion, Phase 1.

Should you have any questions, I can be reached at 708-577-9018 or at [matt.gaughan@plussixengineering.com](mailto:matt.gaughan@plussixengineering.com).

Sincerely,

A handwritten signature in blue ink that reads "Matthew A. Gaughan".
