For purposes of this Agreement, the term OWNER refers to the current owner of the PROPERTY, and the OWNER's successors, heirs, and assigns.

WHEREAS, the OWNER of the PROPERTY possesses full authority to execute deeds, mortgages, and other covenants affecting the PROPERTY and desires to enter into this Agreement, as required by the City of Pflugerville's Code of Ordinances, including without limitation the Unified Development Code and associated Engineering Design and Construction Standards Manual, and the City's Texas Commission on Environmental Quality-issued Municipal Separate Storm Sewer System ("MS4") TPDES General Permit (TXR040000), collectively, the "Regulations"; and

WHEREAS, the OWNER acknowledges and agrees that, in order to ensure perpetual compliance with the Regulations, the PROPERTY must be impressed with certain covenants and restrictions;

WHEREAS, the Regulations generally and specifically require the design, construction and perpetual maintenance of permanent post construction storm water best management practices ("BMPs") developed and included within a Storm Water Management Site Plan ("SWMSP") required as a part of, and incident to, development, and OWNER acknowledges that compliance therewith by virtue of this Agreement and the terms hereof shall enable OWNER to develop the PROPERTY, which is accepted in consideration of this Agreement; and

WHEREAS, the CITY is charged with the responsibility of protecting the public health, safety and welfare through implementation of storm water pollution prevention measures, including ensuring that SWMSPs are developed, and post construction storm water BMPs are implemented and perpetually maintained by property owners.

NOW, THEREFORE, AND IN CONSIDERATION OF, the mutual covenants and obligations herein expressed, the Parties hereto agree as follows:

1. RECITALS INCORPORATED. The above Recitals and all terms defined therein are incorporated into this Agreement for all purposes.

2. DECLARATION OF COVENANTS AND RESTRICTIONS. It is declared that the OWNER of PROPERTY, shall hold, sell and convey the PROPERTY, subject to the following covenants and restrictions (the "Restrictive Covenants"), which are impressed upon the PROPERTY by this Agreement. OWNER further declares that these Restrictive Covenants shall run with the land, and shall be binding upon the OWNER, its heirs, successors and assigns, and that each contract, deed or conveyance of any kind conveying all or a portion of the PROPERTY will conclusively be held to have been executed, delivered, and accepted subject to the following covenants, conditions and restrictions, regardless of whether or not they are set out in full or by reference in said contract, deed or conveyance. The OWNER shall record this Agreement in the Official Land Records of Travis County, Texas.

AGREEMENT, OR ANY NEGLIGENT OR WILLFUL ACT OR OMISSION OF THE OWNER, ITS EMPLOYEES, AGENTS OR SUBCONTRACTORS IN THE PERFORMANCE, OR OMISSION, OF ANY ACT CONTEMPLATED BY THIS AGREEMENT.

PERMANENT STORMWATER MAINTENANCE PLAN

PROJECT NAME: Park Crest Middle School

Inspections: Inspections should take place a minimum of twice a year. One inspection should take place during or immediately following wet weather. The inlet and outlet structure should be inspected for signs of clogging. Debris and sediment should be removed from the inlet and outlet. During each inspection, erosion areas should be identified and repaired/revegetated immediately. Cracks, voids, and undermining should be patched/filled to prevent additional structural damage.

Mowing: The pond should be mowed regularly to discourage woody growth and to control weeds. Grass areas in and around basins must be mowed at least twice annually, or more frequently if vegetation exceeds 18 inches in height. More frequent mowing to maintain aesthetic appeal may be necessary in landscaped areas.

Sediment Removal: Sediment shall be removed from the basin at least every 5 years and as necessary for the proper operation of the pond. All accumulated sediment shall be properly disposed.

Litter Removal: As part of periodic mowing operations and inspections, debris and litter should be removed from the surface of the basin.

Erosion Control: The basin side slopes may periodically suffer from slumping and erosion. Corrective measures such as regarding and revegetation may be necessary. Similarly, rock riprap/splashpads at the pond outlet may require repair or replacement.

Nuisance Control: Standing water or soggy conditions may occur in the basin. Some standing water may occur after the basin drawdown is complete. Twice a year, the facility should be evaluated in terms of nuisance control (insects, weeds, odors, algae, etc.).

Maintenance Access: Access into the basins should be via the provided access and not at random points along the earthen side slopes so as to minimize erosion/destruction of the earthen slopes.

Structural Repairs and Replacement: With each inspection, any damage to the structural elements of the system (Pipes, concrete drainage structures, retaining walls, etc.) should be identified and repaired immediately. These repairs should be including patching of cracked concrete, sealing of voids, and removal of vegetation from cracks and joints. The various inlet/outlet and riser works in a basin will eventually deteriorate and must be replaced.
