Re: Pflugerville Lake Pump Station Standby Generator

Construction Bid Award Recommendation

Dear Mr. Pritchett:

Three competitive, sealed bids were received at the City's Office in Pflugerville, Texas on Wednesday, July 28, 2021 for the above referenced project. They were opened and publicly read. The bids were as follows:

Contractor	Tax Exempt	Taxable	Total Bid
		<b>Products</b>	
McDonald Municipal and Industrial	\$1,149,469.00	\$15,000	\$1,164,469.00
G. Creek Construction	\$1,339,165.00	\$22,000	\$1,361,165.00
Austin Engineering Co., Inc.	\$1,529,986.40	\$10,000	\$1,539,986.40

## A few observations:

- 1. The final Engineering Opinion of Probable Construction Costs (OPCC) was \$1.5million.
- 2. There was a clerical error in the summation of an interim subtotal on the bid form from McDonald Municipal where they included their mobilization line item in with their electrical distribution and controls subtotal, but this had no bearing on the overall bid number whatsoever.
- 3. All bidders submitted compliant bids.
- 4. McDonald Municipal is currently doing a project of similar size and complexity for the City of Garland. That project is currently at approximately 75% complete, it is on schedule, there have been no change orders to date, and the general consensus is that the project is going well.

It is our opinion that McDonald Municipal is qualified to perform the required work based on their previous experience with other similar scale projects. Based on the above details, we recommend awarding the contract to McDonald Municipal and Industrial in the amount of \$1,164,469.

If there are any questions, or if you require additional information, please do not hesitate to contact us. We look forward to working with you on this project as we move into the construction phase.

Regards,

Gupta & Associates, Inc.
