Conduct a presentation on Pf101 Class of 2023 Graduation.

This year's graduation presentation will be for the Class of 2023. In the PF101 program, citizens are invited to participate in a ten-week long program, featuring presentations by multiple departments at the City of Pflugerville. PF101 members learn about the City Manager's Office, Finance, Communications, Animal Welfare Services, Public Works, Development Services, Parks & Recreation, Police & Municipal Court, Engineering, PCDC and the Library. PF101 is a program used by the City to teach residents about our day to day functions and roles of local government. We believe that it helps build a relationship with the community while encouraging our citizens to participate in civic functions. The purpose of PF101 is to educate residents about operations, cultivate future leaders, and showcase the talents of staff. The class takes place one night each week for about two hours at various City facilities. This year was the first year back in-person following the Covid-19 Pandemic.
