Approving the award of a construction contract for the Recreation Center Renovation Project to H.C.S. Inc, General Contractor, the lowest responsible bidder from three total bids received and opened on August 9, 2018, and authorizing the City Manager to execute same.

The Recreation Center Renovation Project includes the renovation of the senior room and current children's nursery into a large multi-purpose room with a room divider. This renovation also includes accessibility improvements to the existing single restroom located in the space, as well as repurposing a storage area into office space for the Seniors Program Coordinator. This renovated space will be used mainly for senior programming.

This project was originally part of the Bohls House Renovation Project. In June of 2016 the City Council approved \$600,000 for the design and construction of that project. Reserve funds of \$100,000 were approved for design and \$500,000 of Certificates of Obligation (CO) were approved for construction, including \$25,000 for network improvements for Heritage Park and \$100,000 for the Recreation Center renovations. The Bohls House and Heritage Park portions of that project halted when the City Council declined to proceed with the project with award of a construction contract in December of 2017. The seniors program continues to grow and additional space for it has been a priority for quite some time, so staff proceeded with this specific part of the project.

This project will displace the existing children's nursery and associated babysitting service currently offered to Recreation Center users. The original plan was to move this program to space vacated by Parks & Recreation Staff when other office space was completed in the Bohls House. That project did not move forward, so there is no available space at the Recreation Center for the babysitting program. The babysitting service has been offered for 29 hours per week at an annual cost of approximately \$12,000. This service was used 645 times in the last calendar year and revenues for that timeframe are approximately \$1,000.

Pending award, construction is anticipated to begin in September and be complete in sixty (60)

calendar days from start.

The bid tabulation is attached. The estimated cost of this project was \$100,000.

Status

The project was advertised for bids from July 11, 2018 - August 9, 2018. Bids were received and opened on August 9, 2018.

Fiscal Impact

This project is funded by 2016 Certificates of Obligation (CO's).

Staff Recommendation

Staff recommends awarding the construction contract for the Recreation Center Renovation Project to H.C.S. Inc, General Contractor, the lowest responsible bidder and authorizing the City Manager to execute the same.
