### Discussion Only - Potential amendments to Old Town Center Boundaries

This time will be provided as a continuation of the conversation held during the worksession as needed. This item will include the review of the history of the Old Town Boundaries and potential options for future changes. Staff will cover several options and the factors of each and request feedback from the Planning and Zoning Commission. After receiving input from the Planning and Zoning Commission the options will be narrowed down to provide for a focused discussion at a public hearing scheduled for May. No action will be taken.

Emily M. Barron, AICP, Planning Director
